DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on October 5, 2004 has been entered.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Regarding claims 21-24, and 28-30 the term "optionally" renders the claims indefinite because it is unclear whether the limitations following the term are part of the claimed invention. See MPEP § 2173.05(h).

4. Claim 34 recites the limitation "the single input signal" in line 12. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

5. **Claims 1-20, 25-26, 31-33** are allowed.
6. **Claim 30** is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter:

Regarding **claims 1, 30, 31, 32, and 33**, the cited prior art provided numerous examples of different noise reduction methods but failed to disclose or fairly suggest the specific functional limitation "*wherein there is no substantial modification to the input signal for very low and for very high signal to noise ratios*" as specify in claim.

Claims 2-20, and 25-26 are allowable by virtue of their dependency on claim 1.

Response to Arguments

7. Applicant's arguments with respect to claims 21-24, 28-30, and 34 have been considered but they are moot in view of the new grounds of rejection.
